HUDSON

the World's Largest Selling

"EIGHT"

Registrations officially recorded for the United States and all available figures for the Dominion of Canada show that for this year more Hudson Eights have been delivered to consumers than any other eight in the world.

See For Yourself the Increasing Number of Hudson Eights on the Street

Hudson Beauty, Hudson Quality, Hudson Performance and Hudson Value frankly question the wisdom of ever paying more for any car. They have made Hudson the world's largest selling Eight. And the growing power of this conviction is shown in the increasing numbers you see everywhere.

FOUR SERIES...ONE, THE WORLD'S LOWEST PRICED VALVE-IN-HEAD STRAIGHT EIGHT

at factory Oshawa, Ont.

NOW, twice as many Canadians can enjoy the greate value, finer performance and enduring worth that have always been characteristic of McLaughlin-Buick motor cars.

For now, McLaughlin-Buick, building on the famous, time-tried valve-in-head principle, and holding fast to proved fundamentals, has evolved the Straight Eight. You may expect a definite new quality and measure of performance—flexibility, higher speed, greater power— all delivered as smoothly, surely and as quietly as the tread of a panther.

Most remarkable, is the fact that McLaughlin-Buick resources and ingenuity now make it possible for new thousands of Canadians to own a McLaughlin-Buick Straight Eight, for one of the models is priced as low as \$1290, at factory, Oshawa, Ont. Already many more people buy McLaughlin-Buicks than any other car to its price class. Now the great worth, that this unusual preference clearly demonstrates, is available to almost every motorist.

The Oil Temperature Regulator, by heating the oil in cold weather assures prompt efficiency when starting; it also cools the oil when high speeds are maintained and prevents loss of lubricating value. The Intake Silencer effectively blankets acceleration noises. The Ring-type Torsional Balancer smooths out engine vi-bration. And Insulated Bodies by Fisher, effect a new lasting quietness, comfort and safety because of a chassis construction strengthened doubly without any increase in weight.

Purchase is convenient, due to G.M.A.C., General Motors' own deferred payment plan and General Motors Owner Service Policy assures your complete and continued satisfaction.

SYNCRO - MESH SILENT TRANSMISSION on three longer wheelbase series only McLaughlin-Buck's five standard transmission is used on the series of lowest price.

Advertised Brands Are Always Best

"Yes I always recommend advertised brands . . . and I'll tell you why—I want my customers to get good goods.

"Advertised brands are the best value you can buy. In every line they lead in quality. They have to.

"Do you think a manufacturer goes on drawing people's attention to his product by advertising it if it isn't Al quality? Certainly not—the very fact that he advertises it is a guarantee that it is a good product. "Why are advertised brands purchased time and time again by the same people?

"Why are the trade-marks of advertised brands so well known everywhere?

"Simply because the public has proved by actual test that advertised brands are the best goods money can buy.

"I know I could make more money by selling my customers an inferior substitute, but I could do it only once. They don't come back a second time,

"No Substitution doesn't pay.

Of course advertisers recognize that the most effective means of keeping the Canadian public informed of the merits of advertised brands is the daily newspaper, because practically every Canadian family reads a daily newspaper every day

Don't Starve The Teeth

Teeth have to be built out of foods that are rich in phosphorus and calcium. Many children take into adult life teeth that are defective, unfit for the job that nature intended. Shredded Wheat with milk helps develop sound teeth, good muscles and good bones. It is rich in the bone-making salts. The crisp, crunchy shreds make chewing necessary and that develops healthy gums and good digestion.

If it is a food problem, we suggest that you and your doctor consider Eagle Brand. For bottle-fed babies, Eagle Brand has been the standby of mothers for three generations. It is especially valuable in difficult feeding cases, being such a safe food—pure, uniform, easily digested. You will be pleased to see your baby begin to thrive immediately when placed on a carefully prepared EagleBrand diet. It is highly endorsed by doctors and nurses.

VALUE FAR ABOVE THE PRICE

Propod worth makes the new Ford the most popular car in Canada. It leads in sales because it leads in value

supports they ove Brason why the THERE IS JUST ONE READER TO mobile in Canada by a large and increasing morein. That reason is value. Read over the list of features given below and you will see that the new Ford brings you everything you want or need in a motor car at an unusually low price.

It has beautiful lines and colors. - It will. do 55 to 65 miles an hour. You know how quickly it accelerates in traffic. Its power is evident on every hill. It is unusually safe because of the fully enclosed four-wheel brakes and the shatterless glass windshield. It has four Houdaille double-acting hydraulie shock shoothers for comfort. And it is an exceptionally economical car because of the low cost of operation and up-keep, low yearly depreciation and long life.

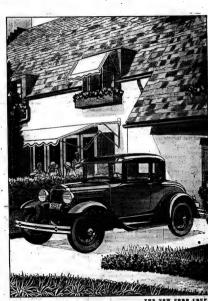

Many of the new Fords have already been driven 50,000, 75,000 and 100,000 miles. In tests and contests in Canada, in the United States and abroad, It has won many medals for reliability and general all-round good performance. It is used exclusively by a large number of industrial companies and government bureaus which keep exact cost figures.

Telephone or visit the nearest Ford dealer and have him give you a demonstration ride in the new Ford. Pick your own roads. Plan to give the car a severe test. Check up on speed, power, acceleration, case of control, safety, comfort - on every feature of good performance.

Then you will know why the Ford is the most popular Canadian ear. It leads in sales because it leads in value.

On Steep Grades... Don't Try to Pass

There's danger in driving up steep grades in the middle of the road. A car which you cannot see, may approach you from the opposite direction.

Keep in the traffic line on the right side of the road whenever you cannot see a reasonable distance ahead.

The approaching driver may not have time to turn out for you. If he does not do so, there's a crash . . . yourself and others hurt and cars smashed up.

Remember the Rules for Safe Driving. Read them whenever you see them in this advertising or elsewhere.

NEXT WEEK is a dangerous decision when you need roofing NO

When you realize that one heavy rainstorm leaking through your roof can do more damage to interior furnishings than a new roof costs, then you will see how important it is to immediately give your roof the attention it requires.

Patching is an expensive remedy. The truly economical way is a Brantford Asphalt Slate roof that will give years of security against fire and weather.

See your Brantford dealer TO-DAY and ask him to show you the new colour slates. Talk to him about price and the present plentiful supply of labour.

Re-roof NOW at little trouble or expense.

Insulated Bodies by Fisher Ring-Type Torsional Balancer Engine Oil Temperature Regulator

Syncro-Mesh Transmission

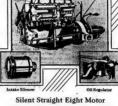

Syncro-Mesh Transmission
Noiseless gear change, made possible
through the Syncro-Mesh Transmission,
is an advanced and costly feature characteristic of McLaughin-Buck's 22 year
engineering supremacy, that is carried to
ney heights by the introduction of the

You may go from first, to second, to third, at a flick of your finger . . . and then back to second again if your driving

Your comfort and pleasure in driving will be enhanced by this sound and proven feature. You will find a new convenience in car-control made possible by this Syncro-Mesh Transmission.

It is found on the longer wheelbase models, while McLaughlin-Buick's fine standard transmission is used in the series of lowest price.

Now almost everyone can own a McLaugh-lin-Buick, for the 8-50 series lists as low as \$1290 at factory; and G.M.-d.C., General Motors' own deferred payment plan, makes, easier the purchase of any model you desire.

Many engineering advancements contribute to the ability of the McLaughlin-Buick traight Eight motor to maintain high spee

The McLaughijn-Buick Oil Temperature Regulator contributes to permanent silence by adving the problem of proper engine problem of proper engine device, it has no moving parts and requires no attention. In cold weather it warms the oil quickly, thus assuring efficient engine performance promptly. It also prevents and oil in the ungine from becoming overheated and loong its laborating quality.

Among other notable features are the Intake Silencer, that effectively blankets accelera-tion noises; and the Ring-Type Torsional

In its Fisher Bodies too, the new Mc-Laughlin-Buick Straight Eight exemplifies the silence of a shadow, for they are com-pletely insulated, like a fine home, against cold, heat and noise.

coid, neat and noise.

Improvements in body construction and strength are as advanced in principle as McLaughlin-Buick's many mechanical features. The chassis has been strengthened doubly without increasing its weight. Motor and body have then been designed as a unit with this reinforced frame. At train-like sureness and roadability, with consequent riding ease and safety, result.

Although unchanged in general appearance from the lines which have proved so popular, the bodies incorporate numerous refinements. Exteriors are finished in the latest and most pleasing colors . . . while in-teriors set a new standard of beauty and

YOU would not buy tires good for only 5,000 miles! You would not use a gasoline that gave only 5 miles to the gallon! Then, why use a motor oil that gives only 500 miles before a change is necessary? Castrol gives up to FOUR TIMES the mileage of an ordinary oil . . . 2,000 miles without change.

An ordinary oil costs you, say, \$1.40 (for a four-quart filling) every 500 miles you drive. Castrol actually costs you only 50c for the same mileage! A saving over the cheaper per quart oil of exactly 90c. The more you drive in a year's time the greater the saving!

SPOIL YOUR VACATION

NOW is the time to Lock your Barn Roof against Fire and Weather

> Brantford Arro-Lock Slates have a special interlocking feature that fastens all the slates together to form a ONE-PIECE roof.

The heaviest rain cannot penetrate. Wind cannot carry off single slates, nor can sun, hail or snow cause damage.

Brentford Arro-Lock Slates are permanent protection. They cost less to buy, less to lay, nothing for upkeep, and can be laid right on top of old wood shingles, during harvest-time if necessary

Their colours are fadeless Red, Green and Blue-Black, or the new blended shades "Dorset" and "Cornwall" for striking appearance.

See the Brantford dealer now while labour is plentiful and get a first-class roof on at lowest cost.

We Sell Only GOODYEARS

IT is true that all tires are not alike. And it's obvious that all tires are not the same value. That's why we sell Goodyears only.

We've watched Goodyear Tires in use for a good many years. We're satisfied that they give the longest mileage. We're sold on Supertwist and the All-Weather Tread. And Goodyear gives us a complete line of tires to meet all needs.

It's true we don't make quite as much money per tire. But we sell a lot more tires.

We have your size and type.

Spode Dinnerware From England

We are showing three very qualist and charming designs reproduced from Early Spode, they are "The Butter-cup," "The Fairy Deil" and "Wicker Lane." The decorations are on the wicker shape, a very beautiful model taken from Old Cheisea. The colonings are painted in innees of old blue, old pirk and old green, adding charm and interest to the quaint old designs. The patterns are all painted under the glaze making them really permanent. Come in and see this fine old historic dinnervaer and you will want to worn a few pleess.

A Full Hour of Sunlight's Healthful Vitamin in every Muffet you eat

Muffets..new whole wheat biscuit alone brings you four important vitamins - one the identical health-promoting vitamin of sunshine

WITHOUT the new exclusive process called irradiation, Muffets would still bring you healthful nourishment such as few other foods can give. For Muffets are crisp, other rooms can give, For munets are Cisp, well-browned biscuits made of the entire wheat grain. Nothing is removed. Read the complete health facts printed here.

Health value increased

But now by a parented scientific method, the natural food values of Muffets are amazingly increased. By means of certain powerful rays similar to those in sunlight, we store up in every Muffet as much of the vital vitamin effect of sunlight as is secured from 20 min-med errors or no noords sugment studying. utes' exposure to noonday summer sunshine, or to 3 hours of winter sun.*

Crisp, well-browned whole wheat biscuit with the delicious, toasted flavor you like so well-Muffets alone, with fruit juices, or

with milk or cream...are enticing to the taste and nourishing as well.

and nourising as well.

Science knows how dependent on sunlight we all are for health. Children need the "sun" vitamin to have strong bones...strong teeth. Men and women likewise need it to restore wastage of teeth and bone

Now these benefits of summer sunshi are yours the whole year 'round . . . at breakfast or at any other meal. Not a day but you may get in this delicious whole wheat biscuit every one of

Health Facts

- For growth—The proteins in Muffets are far more efficient than the pro-teins of ordinary fine ceresis.
- trias of ordinary fine ceresis.

 For bouse and teeth —3 times as much phosphorus in Maffees as in white flour. 20% more relation than even in ordinary whole wheat bread!

 For your blood—3 times as much item in Muffees as in commend or rice. For well-being - Roughage - it the exact proportion intended by nature is in every Muffet.

Advertised Brands Are Always Best

"Yes . . . I always recommend advertised brands . . . and I'll tell you why...I want my customers to get good goods.

"Advertised brands are the best value you can buy. In every line they lead in quality. They have to.

"Do you think a manufacturer goes on drawing people's attention to his product by adverticing it if it isn't Al quality? Certainly not—the very fact that he advertises it is a guarantee that it is a good product. "Why are advertised brands purchased time and time again by the same people?

"Why are the trade-marks of advertised brands so well known everywhere?

"Simply because the public has proved by actual test that advertised brands are the best goods money can buy.

"I know I could make more money by selling my customers an inferior substitute, but I could do it only once. They don't come back a second time.

"No . . . Substitution doesn't pay.

Of course advertisers recognize that the most effective means of keeping the Canadian public informed of the merits of advertised brands is the daily newspaper, because practically every Canadian family reads a daily newspaper every day

Night Time Terror

Lights that Glare

The greatest menace to night driving is the car with only one headlight, or headlights that glare.

A driver meeting a "one-cycd" car cannot tell whether it is the left or right headlight which is burning. Therefore he is unable to judge the distance required for clearance in passing. Often a crash results or one driver is forced into the ditch.

When lights glare, drivers in the opposite direction are blinded. They cannot see the side of the road or the traffic shead of them. The law provides a fine for defective lights and the Night Traffic Patrol is vigilant. Any garage will quickly adjust your headlights so they will not glare. You can do it yourself by following the directions which the Department of Highways will send you free.

FROM THE STANDPOINT OF GOOD BUSINESS A GOOD BUY

JUDGING Oldsmobile from the standpoint of good business is one of the best ways to assure yourself that Oldsmobile is the car you want. For Oldsmobile has all the characteristics which identify a good buy.

First, it is a known quantity . . a product backed by its own remarkably successful record over a third of a century.

Second, it provides known quality. Engine, chassis and Fisher body are designed, not as units of individual excellence, but .. by Oldsmobile principles of balanced engineering . . as parts of a perfectly harmonized whole.

Third, in smart appearance, in luxurious comfort and in absolute dependability . Oldsmobile offers marked value. Every comparison serves to make that value more apparent.

But why not make your own comparisons . . let your own sound judgment be your guide. You will find Oldsmobile to be an outstanding performer in every way . . and from the standpoint of good business . . a good buy.

We will be glad to explain to you General Motors' Owner Service policy, the most complete in the automobile indus-try, and G.M.A.C., General Motors' own plan of deferred

IT'S WISE TO CHEVROLET CHOOSE A SIX

A Truly Modern Car You Will be Proud to Own

IT is wise to choose a Cherrolet Six—because it is definitely a better low-priced automobil Priced as low as \$635 at the factory, it is mo modern—in design, performance, appearance at features—than any other car in its field. It is car to be proud of, wherever you go.

Smoother—Faster—Smarter

Higher Resale Value

In selecting a low-priced car, you should con-how much more pride and pleasure you will in in driving this modern Six. And do not over this fact! Because the Chevrolet Six is so, far a of its field in providing modern, performance appearance today, it will be pooding tomorra and command a better so, sale value when you or to trade it in.

Hold Everything Order that new roof TO-DAY!

If you need a new roof, your Brantford Roofing dealer can give you an estimate which will be surprisingly low.

Ask him particularly about Brantford Colour Slates --- several colours blended in each state. They make a roof of brillians beauty combined with permanent weather protection and fire-resistance.

And your present roof can be left where it is. Brantford Asphalt Slates can be laid directly over old wooden shingles for a faster job at less cost.

But get it done at once--next week a rainstorm or flaming brands may have caused costly damage.

Great Dinnerware Values Spode Dinnerware From England

We are showing three very quaint and charming designs reproduced from Early Spode, they are "The Butter-cup," "The Fairy Deli" and "Wicker Lane." The decorations are on the wicker shape, a very beautiful model taken from Old Chcissa. The colorings are painted in iones of old blue, old pink and old green, adding charm and interest to the quaint old designs. The patterns are all painted under the glaze making them really permanent. Come in and see this fine old liketoric diamevare and you will want to own, few pieces.

GOODYEARS EXCEL

In the TWO Main Parts of a Tire

Press the palm of your hand down on the Goodyear All-Weather Tread and feel how the deep-cut sharp-edged blocks under pressure grip and pinch the flesh. That is what the Goodyear Tread does on the surface of the road, and why it has superior traction.

THERE are two main parts of a tire—the tread and the carcass. Goodyear Tires excel in both!

There is greater traction in the Goodyear All-Weather Tread. There is greater vitality in the Goodyear Supertwist carcass. What proves this? These two tests.

These advantages in Goodyear Tires cost you no more; yet they are indis-pensable to the utmost enjoyment of your car. Come in and talk it over

Have us show you on our cord-test ing machine the greater stretch in Goodyear Supertwist Cord over standard cord. This extra stretch gives the Goodyear Supertwist Carcass its unmatched vitality, enabling it to withstand road-shocks and continuous flexing.

Be Fair to the Motorist

Pedestrians figure in nearly Half the Automobile Accidents

stics show that pedestrians are concerned in nearly half the accid-ablic thoroughfares. Yet all accidents on the road are referred t on public thoroughfares.

Those who walk on streets and highways should become "traffic conscious" just as those who drive. For their own safety, they should exercise the same Care, Courtesy and Common Sense which is expected of the motorist. Too often the pedestrian infringes on the rights of the motorist, and often he insists upon his own rights in the face of certain danger which the

Pedestrians, be Careful, be Courteous, show Common Sense. You w have little satisfaction if you get burt in saying that the driver was to blan Remember, also, that others may be injured when your lack of cauti forces a motorist to swerre his car.

THE OLD CARPENTER

The old carpenter whistles a merry lay With seldom a moment's pause, Timing to music the whole bright day As he hammers and nails and saws

He labors with level and adse and plane.
Till each timber stands atraight and true
As he whistles all day his happy refrain;
He is building a house for two!

mmer day's heat pours from the sun' bright flask; But the carpenter's notes are sweet, he knows he toils at a magic task In that house on a quiet street.

He knows he is making a eastle in Spain For a queen to wander through. With a proud young king to share her reign; He is building a house for two!

Safety Responsibility Law of Ontario Effective September 1st

The ordinary careful driver will undoubtedly approve of the new law, with which he should familiaries himself at once. While not a compulsory insurance law, it makes the carrying of insurance as well as careful driving more important

It bars from the road the careless, irresponsible driver

Suspension of driving license will result from any of several offences against provisions in this Act designed to safeguard person and property on the highway. Safe, same driving is necessary.

Also, snapsusion of driving license follows inability to pay for damage caused. Unless you are insured, you must be prepared to pay personally up to \$11,000. Insurance is more than ever desirable.

There are many important points in this Act should when which every material should know

Pumphlets clearly explaining the new law, can be procured without oberge from the agent of any sempany a member of

Ask yourself why this is so

HHH

1. 1. 10. 25

It is not a price proposition. It is best 100c to the dollar value ever offered the Canadian public by a 100 per cent. Canadian firm.

Our advice is look out for the man that wants to sell you something just as good for less-it simply can't be done and no one knows this better than the fellow that tries to sell you on this basis, get the fact from the Beatty Man, not the Competitive Salesman,

Recause it combines the three things necessary to & washer buyer, 100 per cent, mechanical construction, 100 per cent, washing ability and 100 per cent, service. These are three of the many reasons why it outsells all other washers combined

Don't forget The Beatty wringer is exclusive, 50lbs. in weight and entirely automatic with two in one safety release.

649 Miles in 659 Minutes

A Reo Road Record That Has Never Been Beater

> It was a Reo Model 15 that recently traveled 649 miles in 659 minutes a stock car road record that has never been beaten.

To you this remarkable feat means not only that Reo's speed rating of 70 miles per hour is an honest and conservative rating-

But-far more important-it proves again the amazing staunchness of Reo construction, It shows why a Reo is still young after years of service.

You are invited to enjoy a demonstration in a Reo Model 15-or any other of the famous Reo Models in our stock.

DECLARATION OF LOVE

Long, long he waited for her answer. She held him between hope and fear, Half dreading lest the truth he fathom, The truth that he was woolly dear.

But when at last he importuned her;
"Speak, Love, for all my being waits,
And I can bear suspense no longer,
Grown faint and weak at doubt's dark
gates."

Long had he waited for her answer, While fear and hope kept warring there, Through dawns when he was thrilled with rapture, Through twilights when he drained despair.

She spoke, her voice was muted music:

"Love, I have waited long to tell
The thing for which your heart was pleading
Lest it might be I love too well!

Your arms hold all my hopes of heaven.

In dreams I come to nestle there.

Through dawns when I am thrilled with
rapture.

Through twilights when I drain
despair.

Men Now Mould their own Futures

M EN and women to-day have found they need not be vic-tims of circumstance. They can mould their own futures without fear that even prolonged illness or premature death will ruin their financial plans.

Our forefathers struggled a lifetime that they might "get the home clear" and have a little "nest egg." To-day Life Insurance is used to uarantee success in all such prof care and makes life happier.

A man aged 35 can set up into modistely a \$17,000 Life Insur-ance estate by an annual deposit equal to \$1.00 per day. (Other ages and other amounts in pro-portion). Contrast this with a lifelong struggle, filled with monopolitics.

The Ford is Outselling Every Other Car in Canada by a Large and Constantly Increasing Margin

Prize Winners in Ladies' Work at Belleville Fair

THE Ford Motor Company of Canada, Limited, was organized twentysix years ago. The business was started in a small frame building and the entire first year's production totaled only 117 cars. Today the fine modern plant covers many acres of ground and

the average payroll is in excess of \$11,000,000 a year. The first force of 17 men has grown to a peak of 7500, and the Ford Motor Company of Canada, Limited, is one of the leading industrial organizations of the Dominion. Canadians may well be proud of the Ford, for it is practically all made in Canada, of Canadian materials, and by Canadian

strength of steel makes the new Ford a sturdy, rugged car. Nearly forty kinds of steel are used in the chassis alone.

RESTIESS STEEL.—Evidence of the high quality built into the Ford is aboven by the use of Russless Steel for the head imps, radistor-shell, but caps, cord finish strip, tall kamp and other exterior metal parts. It will not rust, corrode, scale or turnish in any kind de weather. Its bright luster will last for the life of the car.

A SMOOTH-RUNNING CAR — There are more than twenty ball and roller bearings in the new Ford — an exceptionally large namber. They insure smoother operation, save gas-oline, give more speed and power, decrease noise and increase the durability and effi-ciency of the transmission gears.
